# About

This programme supports the university's faculty in inviting foreign students from collaborating research groups or foreign students interested in applying for doctoral degrees at the university for short-term visits. In addition to conducting research in faculty research groups, students can also participate in cultural experiences and practical activities organised by the university.

## Scholarship Support

- **Tuition and accommodation fee waiver**
- **Monthly living allowance 3,000 RMB (for registered BA or Master), 3,500 RMB (for Master graduate or above.)**
- **Comprehensive medical insurance reimbursement 400 RMB**
